Booster, Booster!

I've just spent the last couple of days uploading some new "old" songs onto www.missionbibleclass.org. I was reminded again of how songs add a lot of joy to Bible Classes and any gathering of children.

People often tell me about their favourite songs that they sang as a child in Sunday School or with their parents. I remember long ago singing Booster, Booster Be a Booster like the girls in the video above are singing. Songs stick!

I've been blessed by a lot of people singing songs for the website. How about having a listen to a few of them. Perhaps you can sing them with the children in your life.
