Spanish Website News

After much prayer and preparation, I'm happy and excited to say that a project is now underway to translate all the content and features of this English website into Spanish.

Please join us in prayer!

Visit the welcome page at and sign up for updates to follow how the project progresses. New lessons will be released as time and funds allow.

Great Teachers:

I've met some amazing men and women in Spanish-speaking locations worldwide. They are devoted to sharing God's Word with the children in their lives. It has been a long-held dream of mine to provide them with resources in their heart language.

Almost 500 million people worldwide are native Spanish speakers, and Spanish is the second most spoken native language after Mandarin Chinese (numbers from blog.rosettastone.com). The website's target user is not a professional educator or theologian but a Christian volunteer who genuinely wants to help children grow in faith.

Project Vision:

A quarter of the world's population is under the age of 15 years. The Mission Bible Class Ministry began in 2014 with a vision of Christians worldwide equipped to value and spiritually nurture children. Providing resources in the Spanish language is a natural expression of that vision.
