

## Little to Big!

Parable of the Mustard Seed (Mark 4:30-32)

The mustard seed was the smallest seed but grew to be the biggest tree. To help pre-schoolers understand the sequence of smaller to larger show them these circles. Start by showing the smallest. Then, one at a time, reveal the next size up until you show the largest one.

To prepare: print this page on coloured paper and then cut out the circles.
