

True or False Toss Review Game

Game Supplies:

True and False Labels (print these or just hand-write your own), tape, 2 containers (bowls, boxes, baskets, buckets or whatever you have), and something to toss (coin, ball, stuffed toy or whatever you have).

Game Instructions:

Cut out the labels and attach them to two containers. You call out statements from the story or stories you have been covering and children take turns deciding whether the statement is True or False and then tossing the object into the correct container. If they miss (the answer or the container) then the next child gets a chance to answer and toss. Children can score a point for each object in the correct container or you can just play for the fun of it and not keep score.

Alternatively, you can describe a situation where a child chooses to do right or wrong (relating to an application of the day's bible story) and then say "They chose God's way." Children toss the object into the correct container in response to your statement.
